## ABOUT THE PROGRAMME

With the increasing occurrence of medical and psychiatric emergencies in healthcare settings, it is essential for nursing personnel to have updated knowledge and practical skills to respond promptly and effectively.

The theme of the CNE "**Elevating Nursing Competence in Emergency Management**" focuses on enhancing nurses' preparedness in identifying and managing common medical and psychiatric emergencies through evidence-based practices, simulation, and hands-on training.

## OBJECTIVE

- To recognize common emergency situations.
- To identify early signs of serious or life-threatening conditions.
- Perform quick and accurate assessment of patients during emergencies.

- To provide appropriate immediate care in all the emergency situations.
- To demonstrate basic life support and assist during resuscitation procedures.
- To use emergency equipment and crash carts correctly and safely.
- To practice safety and infection control measures during emergency care.
- To communicate effectively with other healthcare team members during emergencies.

### Target Participants:

- *Nursing personnel working in Government Health care setting in Tezpur,*
- *M.Sc Nursing Trainee from LGBRIMH.*
